

VOLUNTEER.

Traditional Volunteering:

Here you volunteer by working on our various projects. These projects can be as short as a few hours or as long as one year or longer.

Internship/ Gap Year Volunteering:

In this type of volunteering, you will be working closely day-in and day-out with the organisation operations.

Voluntourism:

If you love travelling while volunteering, then this is the best way to engage with us in our projects that sometimes need travelling in various parts of Kenya.

Volunteer when you travel and gain local experience!

Online Volunteering:

You can volunteer for the organisation in different capacities from your home/ office and at your convenience. Projects may involve helping with social media, website or designing some material, mentoring youth, proof-reading articles, translations etc.
